

PA-12/PA-18

PRECAST CONCRETE WALL PANEL ANCHOR

SIMPLE • SAFE • SECURE™

SAVES TIME & LABOR!

A perfect companion to the PC-10 panel connector, the PA-12 and PA-18 are used by precasters to secure wall panels when the foundation is restricted due to the floor slab being in place.

SIMPLE INSTALLATION

- Eliminates field welding
- Installs easily in minutes

SAFETY ASSURED

- Exceeds the code-required tensile load of 10,000 lbs by a factor of 2.4!
- Installs immediately behind the panel as the crane is repositioned

SECURE CONNECTION

- Installs inside the building on a hard, dry surface
- Eliminates the necessity of a "pour-back" strip
- PA covers and drill cavity "breakaway" model available when required for building aesthetics

Front and back view of PA-12 "breakaway" model.
