## PC-10

### PATENTED PRECAST CONCRETE PANEL-TO-FOUNDATION CONNECTION

**SIMPLE • SAFE • SECURE™**

#### THE ADVANCONN ADVANTAGE

Cast the **PATENTED** PC-10 into your precast panel for simple installation in the plant, with **no welding** in the field.

Just two PC-10s per panel will set you up for quick and easy installation!

#### SIMPLE INSTALLATION

- Eliminates field welding
- No special skills required

#### SAFETY ASSURED

- Reduced eccentricity - load transfer path closer to the neutral axis of the panel.
- Quick, positive visual inspections
- Complies with ACI 318 -14- 16.2 & 17 and is fully load tested

#### SECURE CONNECTION

- Tested to 1.7 times (17,200 lbs) code-required 10,000 lbs tensile capacity
- Installs immediately behind panel erection as the crane is repositioned

*"Much more efficient and effective than our previous system. We save dollars and critical time during installation by eliminating field welding and providing a 'stand-up' installation procedure.*

*- Mark Lookabaugh, ALD Precast Corp., Columbus, Ohio*

Installs with an 8.5" Simpson Titen Anchor
